REGISTERING AUTHORITY MAY CAUSE THE AXLE-WEIGHT FOR THE TIME BEING OF ANY AXLE OF A HEAVY MOTOR-VEHICLE TO BE ASCERTAINED.

35. When the registering authority or any officer duly authorized by him in this behalf has reasonable ground for suspecting that the axle-weight for the time being of any axle of any heavy motor-vehicle or trailer drawn thereby exceeds the registered or marked axle-weight of that axle he may cause the axle-weight for the time being of any such axle to be ascertained.

Provided also that—

(i) if the tire is constructed of separate plates, the plates may be separated by parallel spaces which shall be disposed throughout the outer surface of the tire so that nowhere shall the aggregate extent of the space or spaces in the course of a straight line drawn horizontally across the circumference of the wheel exceed one-eighth part of the width of the tire;

(ii) the driving wheels of a heavy motor-vehicle shall be cylindrical and smooth-soled or shod with diagonal cross-bars of not less than three inches in width nor more than three-quarters of an inch in thickness, extending the full breadth of the tire, and the space intervening between each such cross-bar shall not exceed three inches;

CONDITIONS FOR THE USE OF TRAILERS.

NOTIFICATION.

Ootacamund, June 5, 1916.

No. 59.—The following resolution of the Government of India is republished :—

DEPARTMENT OF EDUCATION.

(Education.)

Simla, the 1st May 1916.

No. 899

Resolution.—Three questions of importance have lately been engaging the attention of the Government of India in connection with the policy regarding State scholarships :—

(a) The advisability, in the interest of female education in this country, of assisting and encouraging Indian women to receive a medical training outside India in the United Kingdom or elsewhere ;

(b) The insufficiency, in some cases, of the existing rates of Government scholarships ; and

(c) The difficulty of securing the admission of State scholars to the Universities of Oxford and Cambridge.

2. The importance of (a) has been emphasised by the recent institution of a medical service for women in India. Moreover, the provision of facilities for a course of training in Europe should increase the attractiveness of the study of medicine as well as afford an inducement and an opportunity for the best women graduates to undertake special courses of training abroad. The Government of India have accordingly invited and obtained the approval of the Secretary of State to the grant, from Imperial revenues, to an Indian woman graduate of one scholarship annually, tenable in the United Kingdom or, with special sanction, in foreign countries. This scholarship, however, will not necessarily be confined to the study of medicine but will also be available for training in certain other subjects. The general practice will be that while the scholarship will usually be awarded for the study of medicine, it may also be available for a candidate who desires to undertake some other educational or professional course. Further particulars regarding the scholarship will be found in Appendices I and II. The first scholarship will be awarded in 1919.

3. As regards paragraph 1 (*b*) it has been found that in the case of scholars residing at an Oxford or Cambridge college the allowance of 200*l*. a year is sufficient only to cover the necessary expenses of college life and permits little margin for vacations and other expenses. The existing allowance of 150*l*. in the case of Oriental scholars is also considered inadequate. Hence, after consultation with local Governments and with the sanction of the Secretary of State, the Government of India are pleased to announce that:—

(*a*) The value of the two Government of India University scholarships and of the scholarships granted to a male member of the domiciled community which are mentioned in paragraph 3 (*d*) and (*e*) of this resolution shall be raised from 200*l*. to 250*l*. a year when held in a college at Oxford or Cambridge.

(*b*) The value of the language or Oriental scholarships which are mentioned in paragraph 6 (*d*) of this resolution shall be raised from 150*l*. to 200*l*. a year, on the understanding that the holders of these scholarships will in future be required to pay their own university fees; and it will be further increased to 250*l*. a year on the same understanding when the scholarship is held in a college at Oxford or Cambridge.

(*c*) Before a male scholar leaves India his parent or guardian must show that he has sent to the Secretary for Indian students in London a sum of 25*l*. for initial outfit expenses. In the case of a technical scholar the sum of 15*l*. will be sufficient.

4. With regard to paragraph 1 (*c*), the difficulty of securing admission to colleges at Oxford and Cambridge is largely due to the late date on which applications for admission on behalf of State scholars are often received. The Secretary of State has recently pointed out that, to ensure success, such applications, accompanied by the requisite testimonials, should reach the Secretary for Indian students in March or April each year. The importance of the early and punctual submission of the nomination of scholars was therefore brought to the attention of local Governments and Universities. As will be observed from the Department's letter No. 2428-2432, dated the 24th December 1913, nominations for University scholarships are required to be submitted in the spring or earlier. The Government of India have been in communication with the Secretary of State regarding this matter and have ascertained that, in cases where delay is inevitable through the necessity of awaiting examination results, arrangements for the admission of scholars to Oxford and Cambridge colleges may be made, provided that the selection is reported to the Secretary of State by telegram early in June and testimonials forwarded during that month. In order that this may be done, the Government of India desire that in the case of all State scholarships application should be received on or before May 15th at the very latest. Nominations submitted after that date cannot be considered, as otherwise the interests of all concerned may be affected adversely. It is hoped that by this means the arrangements made for the admission of State scholars to the English Universities, and especially those of Oxford and Cambridge, will be rendered more effective.

5. For the sake of convenience the present opportunity is taken to supersede and collate all previous resolutions and orders on this subject, and to issue the present resolution, the appendices to which deal with State scholarships of all kinds held abroad and the rules relating to them. It is proposed, instead of issuing supplementary instructions which may be required in future, to embody them in re-issues of the present appendices. It is thought that this method will be convenient to the public, since enquiries regarding the conditions of these scholarships are frequent.

6. The Government of India have from time to time sanctioned from Imperial revenues the following State scholarships (including that established in this resolution) tenable abroad by students of this country:—

(*a*) Two scholarships of 200*l*. or 250*l*. [vide paragraph 3 (*a*)] to be awarded annually by the Universities (vide the Government of India, Home Department, resolution No. 1-45-57, dated the 12th February 1888).

(*b*) Ten technical scholarships of 150*l*. to be awarded annually to statutory natives of India (vide the Government of India, Home Department, resolution No. 42, dated the 20th January 1904).

(*c*) One scholarship of 200*l*. or 250*l*. [vide paragraph 3 (*b*)] to be awarded annually to a male student of the domiciled community (vide the Government of India, Home Department, resolution No. 221-238, dated the 19th March 1907).

(*d*) Two scholarships of 200*l*. or 250*l*. [vide paragraph 3 (*d*)] to be awarded annually for the study of Oriental languages (vide the Government of India, Home Department, resolution No. 734-748, dated the 1st September 1908).

(*e*) One scholarship of 200*l*. to be awarded annually to a female candidate of the domiciled community (vide the Government of India, Department of Education, resolution No. 1233-1247, dated the 10th July 1913).

(*f*) One scholarship of 200*l*. to be awarded annually to an Indian woman graduate (vide paragraph 2 of this resolution).

Further detailed information regarding these scholarships is given in appendices to this resolution.

APPENDIX II.

GENERAL AND SPECIAL RULES GOVERNING THE GRANT OF STATE SCHOLARSHIPS.

(GENERAL RULES.)

(i) Candidates must produce medical evidence of physical fitness to undergo a course of study abroad.

(ii) Except in the case of University scholarships for which (subject to the approval of the Governments of India, Madras and Bombay) the Universities make their own selection, each Local Government is invited to nominate annually a candidate or candidates, as the case may be, and the Government of India select from among those nominated the candidates who appear to them the best fitted to hold the scholarships. For technical scholarships no candidate is to be selected by Local Governments on the result of a competitive examination either open or limited.

(iii) Full details including the name and occupation of the scholar's father and place of birth, a summary of his academic career in India and a statement of the course of study proposed to be followed in the United Kingdom, should be furnished for transmission to the India Office some time before the scholar's arrival in England.

(iv) When nominating candidates already resident in the United Kingdom, Local Governments should give the earliest possible intimation to the Government of India regarding the qualifications of such candidates, the course of study they propose to pursue and their address in the United Kingdom. The Government of India will then communicate these particulars to the Secretary of State, and will await a reply from him before selecting the scholars. The Government of India will transmit to Local Governments, the views or instructions received from the India Office at the earliest possible date and, if necessary, by telegram.

(v) Difficulties sometimes arise owing to scholars arriving in England with preconceived plans and ideas based on the advice of educational authorities in India as to the courses of study they should follow and the institution to which they should secure admission, or owing to a scholar's unassisted efforts on his arrival to make his own plans without sufficient knowledge of the requirements of the educational institutions in the United Kingdom. To obviate this cause of difficulty arrangements should be made to let the India Office receive in good time any special suggestion that may be made by college professors and other educational authorities regarding the course of training which a particular scholar might follow with advantage.

(vi) Selected scholars should communicate with the local Advisory Committee (in Burma, the local branch of the Burma Society) in order that they may obtain advice regarding certificates, etc., and they should, when proceeding to England, take with them the originals of their certificates, testimonials and other important personal documents suggested to them by the local Secretary to the Advisory Committee.

(vii) State scholars are required to proceed to England within a reasonable time from the date of their selection so as to arrive there not later than the middle of September, and to reside there for the period of their scholarship unless compelled to return sooner in consequence of ill-health. The scholarship will be payable from the date on which the scholars report their arrival in England. Selected scholars will be provided with a second-class passage to England and also with a second-class return passage if they carry out the instructions of the Secretary of State, and complete the full period of residence or are compelled by sickness to return within that period.

(viii) The scholarships carry with them no conditions as to any subsequent career or service under Government and no expectations of such employment are held out.

(SPECIAL RULES.)

(a) *University Scholarships.*

It is open to each University to consider whether a special examination should be held for the selection of the scholars, or whether the selection should be made on the results of the ordinary examinations. If special examinations are held, the regulations which the University concerned may propose to lay down in regard thereto should be submitted for the previous approval of the Government of India, the necessary arrangements for the conduct of the examinations being made under the orders of the University authorities. The candidates for the special examinations, when such examinations are held, must be young men of proved ability, and will be selected by the Vice-Chancellor on the report of the syndicate or governing body, who will in their turn be guided by the opinions of the professors and examiners concerned.

(b) *Technical Scholarships.*

(i) Local Governments will consider what industries are of importance in the province, and which of them may best be encouraged by scholarships, taking care to connect the scholarship scheme with the system of technical and industrial education in the province. Industries in which Indian capital and enterprise are engaged or likely to be engaged are particularly appropriate for selection.

(ii) In the autumn of each year Local Governments consult local bodies, leading firms and selected individuals as to the industry which is to be encouraged, etc. and, as result of this preliminary consultation, issue a notification (with a copy of the technical scholarship rules) containing full particulars of the scholarship to be awarded, not later than December.

(iii) If Local Governments anticipate difficulty in arranging suitable courses in certain subjects, such as the study of fats, oils and soaps, glass making or the manufacture of sugar, a copy of the notification is sent to the Government of India, who communicate with the Secretary of State early in January. The Government of India will reserve their final selection for scholarships till they have ascertained from the Secretary of State that suitable arrangements can be made in such subjects. In case courses cannot be arranged in any subject, it may be found convenient for Local Governments to mention more than one industry in the notification, so that there may be a certain range of subjects and of candidates from which selection can be made.

(iv) In determining the industry to be studied and in choosing a candidate for the scholarship, Local Governments are required to bear in mind the importance of ensuring that the scholar on his return will find scope for his skill and experience. In recommending a candidate for the study of any industry connected with agriculture, Local Governments might with advantage consult the Agricultural Adviser to the Government of India as to the course of training which the selected scholar should undergo.

(v) The subjects excluded from the scope of these scholarships are Law, Medicine, Forestry, Veterinary Science, Agriculture, Civil Engineering and Geology. It is not intended to send scholars either to Europe or to America to study the extraction of alkalis or vegetable oil pressing.

(vi) Candidates selected for scholarships should ordinarily be of such formed character and habits, and of such an age, that detailed tutelage should be unnecessary.

(vii) The form in which recommendations should be submitted will be found in Appendix III to this resolution.

(viii) If a technical scholar is receiving preliminary training in India, a report upon his work and progress should be forwarded to the Government of India for transmission to the Secretary of State at the end of each year, so that his training in India and in England may be made parts of one considered plan, and that on time may be lost on his arrival in England.

(c) Domiciled Community Scholarship (Male Candidates).

(i) The two main principles which govern the grant of the scholarship are—

(a) that as the object in view is to assist a scholar to take up a University course in England, the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University as far as possible at the same age as boys educated in England;

(b) the scholarship will be given to the scholar who is most fitted to benefit from a course of study at a University.

(ii) In making the selection due regard will be paid to the claims of each province to participate in its turn in the scheme.

(d) Language or Oriental Scholarships.

(i) The scholarship will as a rule be awarded to a candidate who has passed examinations in India which will obtain for him admission to a University in Europe as an Advanced or Research Student.

(ii) Some elementary knowledge of French and German should, if possible, be acquired by the scholar before leaving India.

(iii) In the selection of scholars for the study of Sanskrit regard should be paid to the following considerations. As the vast range of Sanskrit literature makes it necessary for a scholar to select some special field of Sanskrit learning in which to specialise, the choice of the special branch of study should be made in India and the pertinent preparatory studies completed before the scholar leaves for Europe. Professors of Sanskrit in various European Universities have complained that individual Language Scholars have been unable to enter at once on the course of study best fitted for them, through lack of preliminary knowledge which could quite well have been acquired in India. Accordingly if a Sanskrit Scholar wishes to specialise on—

(a) Vedic or philology, he should have some knowledge of Latin and Greek;

(b) philosophy, he should have studied one of the systems of Indian philosophy in the original texts, and have read some Plato and Aristotle;

(c) post-Vedic literature, his reading should have extended considerably beyond the limits of the course prescribed for the M.A. examination of an Indian University.

(e) Domiciled Community Scholarship (Female Candidates) and Scholarship to Indian Women.

If a selected scholar has friends or relatives in the United Kingdom willing to receive her during vacations, their names and addresses should be forwarded to the Educational Adviser in London.

The Local Advisers at Oxford, Cambridge, Manchester, Edinburgh and Glasgow have charge of Government scholars studying at those Universities. Scholars studying at other British Universities will be under the charge of the Educational Adviser in London. The Adviser is the proper person to bring before the Secretary for Indian Students any matter requiring the sanction of the Secretary of State in Council.

2. Every scholar should on reaching England at once report himself to the Educational Adviser in London at 21, Cromwell Road, S.W. Accommodation for new arrivals is provided in that house. 3. Every scholar must obey all instructions which he may receive, either through the Secretary for Indian Students or through his Local Adviser, and must consult his Local Adviser regularly in regard to his work. Any course of study which requires and has received the sanction of the Secretary of State will not be changed without similar sanction.

4. Every scholar must from time to time, whenever the Local Adviser requires it, submit a certificate from the proper College or University Authority, showing that his conduct and progress in study have been satisfactory.

5. Subject to a due compliance with the above conditions, the scholar's allowance will be paid quarterly in advance by the India Office to the Local Adviser under whose charge he is. It will begin from the date of the scholar's reporting his arrival in England, and the Local Adviser will disburse it to the scholar in such instalments as convenience may dictate. Three months after the date of reporting arrival the amount to the ensuing official Quarter Day * will be paid to the Local Adviser, and subsequent payments will be made in advance on or after each official Quarter Day. The allowance will be at the rate of 200*l.* a year, except in the case of scholars admitted to Colleges at Oxford or Cambridge, whose allowances will be increased to 250*l.* a year, to cover the additional expenses involved.

6. Every scholar is required to lodge with the Secretary for Indian students at the India Office, London, before his arrival in England, the sum of 25*l.* for initial expenses. He will have no claim to payment of any instalment of his scholarship until this deposit has been made.

7. Charges for University and College fees, for private tuition, for books, hotel bills, medical attendance, and travelling (except the two journeys between England and India), must be borne by the scholar and will not be defrayed by the Secretary of State.

8. The scholarship is granted for three years, unless the Secretary of State in the exercise of his discretion sees reason to terminate it sooner. Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to comply with the Rules here set forth. It may be terminated at any time if a scholar fails in health or conduct.

9. On the expiration of the scholarship a scholar is provided by the India Office with a free second class passage to India, and he should apply for it without delay through his Local Adviser. He is not entitled to make his own passage arrangements, and to claim an allowance in lieu from the India Office. NOTICE TO MARINERS

No. 618.

CHINA SEA.

British Government notification concerning the exercise by British warships of the right of visit and search of Merchant vessels.

Under instructions from the Chinese Government the following extract from a communication from the British Government to the Chinese Government, dealing with the procedure of British warships in exercising the right of visit and search of merchant vessels, is made public:—

When it is the intention of the commander of a warship to send an officer on board a merchant ship by day the following procedure will be adopted A large red pennant will be hoisted by the warship exercising the right of visit and search The hoisting of the pennant will be accompanied by the firing of a rocket. This will signify that the merchant ship is to close the boat lowered by the warship whether the warship remains near the boat or not. The procedure to be followed by night will be the same as that by day except that two red Verys lights will be the signal for the merchant ship to close the boat, which, when possible, will be illuminated by a searchlight. When the weather precludes boarding, the ship of war will fire two green Verys lights, which will be the signal for the merchant ship to lie-to till daylight.

The new arrangements will come into force immediately and will not be confined to any particular geographical area. Pending the lapse of a reasonable time for the new signals to become generally known, His Majesty's ships will communicate with merchant ships in the usual code in cases where it is found that the meaning of the signals is not understood.

The communication further states that any orders or signals to a merchant vessel should, for stated reasons of an urgent character, be implicitly and instantly obeyed; and that disregard of such orders will necessarily excite suspicion and may lead to the vessel being fired on.

Rules governing the grant of A and B passes by village officers of British villages adjoining the French Settlement of Pondicherry.

All village officers in the South Arcot district are authorised to grant free passes in forms A and B copies of which are subjoined, subject to the following conditions for the transport of articles from one British village to another where French territory adjoins or intervenes.

Note.—Where French territory adjoins the village of issue, but is not on the direct route to the village of destination, application for such passes is entirely optional with the party transporting the articles.

2. Passes may be issued by village officers only to (1) residents of their villages, (2) identifiable residents of other British villages, (3) French subjects holding lands in the village where the pass is granted, and are to be used only for goods which the village officers concerned certify are being exported bona fide from their villages.

3. Passes in Form A will be issued for all goods not exceeding Rs. 10 in value to cover their free transport to their ultimate destination.

4. Passes in Form B will be issued for all goods exceeding Rs. 10 in value to cover their transport to the nearest chauki *en route* to destination and for all consignments of tobacco irrespective of value when the natural route to be taken lies through Pondicherry town. The goods brought under cover of such passes should be escorted to the chaukis by batta coolies deputed by the village officers at the cost of the parties to whom the passes are issued. Females and boys below 16 years of age and those who have any concern with the goods transported are not eligible for employment as batta coolies. The name of the batta coolie and the amount of batta collected should be noted at foot of the B pass. The authorised rate for such coolies is two annas for all distances up to four miles and 6 pies for every additional mile, fractions of a mile being omitted from the calculation. Fresh free passes will then be issued by the chauki officer for the transport of goods from the chauki to the British village of final destination or if the final destination is a French village to the British village adjoining it *en route*.

5. The originals of the passes (which will be in duplicate) should be written in ink first and initialled. The duplicate should then be filled in, signed and handed over to the party in the case of A passes and to the batta coolies in the case of B passes.

6. The routes through which the goods are to be carried should be clearly specified in the passes. It is incumbent upon all holders of A passes to present their passes for check, if there be any chauki or out-gate on the route taken.

7. As no A and B pass is current for more than 24 hours village officers should clearly note in the passes the hour of the day or night at which they are granted.

8. Every village officer should present or (when this is not possible) send the A and B pass books to the officer in charge of the particular chauki to which his village is attached not less than

once a fortnight, for check by the latter and should furnish without delay, any supplementary information required by such officer in respect of any pass. Village officers should also produce their pass books for inspection when called upon to do so, by any Preventive Officer of the Salt, Abkari and Customs Department, not lower in rank than a Sub-Inspector.

9. When indenting for new A and B pass books any completely exhausted books should be returned to the chauki officers concerned with, in the case of B pass books, a full explanation for any missing duplicates.

10. The duplicates of the B passes returned by the chauki officers through the batta coolies should be passed in the originals in the village officer's pass book. No batta due to a batta coolie should be disbursed until the duplicate passes are returned by them. Any sum undisbursed in this connection should be forwarded after a week to the chauki officer concerned with necessary particulars so that it may be credited in the account.

11. In cases, where the passes are issued for groundnuts, indigo or other field produce, the survey number and the extent of land from which the produce was obtained, should invariably be noted in the case of French cultivators' claiming the benefit of these passes and in all other cases so far as possible, for the information of superior authority.

12. Every village munsif supplied with A and B pass books, should, when about to leave his village, hand them over to the karnam who is authorised only in such circumstances to issue the passes to parties applying for them. Manuscript slips signed by the karnam of villages, to which printed pass books have been issued will not be recognised.

13. In the case of remote villages, not supplied with printed pass books manuscript slips issued by Village Officers will be respected by the Customs authorities, provided that they bear a clear indication by seal or otherwise of their official origin. These manuscript passes should also be made out in duplicate and the procedure indicated in rules 2 and 11 *supra* will apply to them.

NOTE.—Value of trees, if any, on the land will be added to the upset price for all the blocks.

2. The assessment on the said land shall be liable to periodical revision in the same manner as that on ordinary ryotwari land, but no portion of the land will, at any time, be assessed at a rate higher than the appropriate dry, wet or garden rate for such land under the general scheme of settlement for the taluk in which the land is situated.

3. Government reserves to itself all gold and other minerals, coal and stone or rock containing or supposed to contain gold or other minerals, and coal known to exist or which may, at any time hereafter, be discovered in, on, or under the said lands or any part thereof, together with full and free liberty and right of ingress, egress and regress by nearest way at all times for Government servants, agents and workmen, and all persons duly authorized by Government in and upon the said lands, and either with or without horses and other cattle, carts, waggons, and other carriages and to erect on the

said lands and use any engines and machinery for the purpose of searching for, working, getting and carrying away such gold and other minerals and coal and also to sink, drive, make and use upon the said lands, mines, pits, shafts, drifts, adits, air-courses and water-courses, and to use all water which may be lifted or raised from the same; also to appropriate and use any part of the surface of the said lands for placing thereon the minerals, waste, rubbish and other substances got from such mines, and generally to do all acts and things necessary or proper for working and getting such gold and other minerals and coal and rendering same merchantable, Government paying or rendering compensation to the purchaser, his heirs, representatives and assigns for all damage he or they shall sustain by reason of the exercise of such right of way or by the erection and use of any such engines, machinery, or works or the exercise of all or any of such rights

3 (a) The Government also reserve to themselves the right to control and regulate at their absolute discretion, the collection, retention, and distribution of the water in or under the said lands or any part thereof, of all rivers and streams flowing in natural channels and of natural lakes and ponds or of the water flowing, collected, retained or distributed, in, or by any channel or other work constructed at the public expense and in particular to intercept or make material alteration in the quantity, quality, direction, force or temperature of the said water and to cut off, stop and hinder the whole or any portion of the supply of the said water without being liable in any case to pay compensation for so doing.

4 All existing and customary rights of Government and of the public in all existing roads and paths and in streams of water in the land shall be reserved.

5. All parties having claims on the said lands incompatible with the sale as herein notified are hereby required to prefer their claims on or before the day aforesaid to the undersigned.

The sale will be stopped or postponed as the case may require—

(1) If the applicant fails to deposit the charges for survey and demarcation of the lands where such survey or demarcation is necessary.

(2) If the application has been withdrawn by the applicant and the Collector decides in the public interests not to proceed with the sale.

(3) If the survey and demarcation of the lands have not been completed.

(4) If the sale has been ascertained to be objectionable on public grounds.

(5) If any claim of private ownership or exclusive occupancy or of any other right incompatible with the disposal of the lands under these rules has been preferred and is pending or is established

Conditions of Sale.

The sale will be made subject to the following conditions :—

1. That the highest bidder above the upset price shall be the purchaser of the lot, and if any dispute arise between two or more bidders at the same price, the lot shall be immediately put up again at the last preceding undisputed bidding and re-sold.

2. That immediately after the lot is knocked down the purchaser thereof shall pay to the Collector or the officer authorized by him to conduct the sale a deposit of Rs. 10 per centum in part payment of his purchase-money and shall, at the same time, sign an acknowledgment in Form Y

3. That the purchaser shall, within 30 days from the day of sale, pay to the Collector the residue of his purchase-money, and shall thereupon receive a patta for the premises in Form Z.

4. That every person desirous of becoming a purchaser is to satisfy himself as to the identity and correct description of the property and the measurement and boundaries of the premises previous to the sale, as, by having the lot knocked down to him, the purchaser thereof shall be held to have waived all objections to any mistakes that may afterwards appear to have been made in the description of the premises, as well as to any other error whatever in the particulars of the property.

5. That if from any cause whatever the purchase shall not be completed by the 30th day from the day of sale, then the purchaser shall pay to the Collector interest at the rate of Rs 12 per cent per annum on the remainder of his purchase-money from the day of sale until the purchase shall be completed, without prejudice nevertheless to the right of re-sale reserved by the following condition, provided, however, that the whole of the purchase-money with interest shall be paid within one year from the date of sale.

6 That if the purchaser shall neglect or refuse to comply with the above conditions or any of them, his deposit money shall be forfeited, and retained by Government, and the Government shall be at liberty to re-sell the lot either by public auction or private contract without the necessity of previously granting a patta to the purchaser; and the deficiency, if any, arising from such re-sale, together with all expenses attending it, shall be made good by the purchaser at the present sale who shall so neglect or refuse as and for liquidated damages.

7. That the assessment on the land shall be paid from fasli 1326, i.e., from 1st July 1916.

8 That the land shall not be sold to any one other than a British subject except with the sanction of the Board of Revenue.
